

Panicked Party

By Ian Wilbanks

The adventuring party was traversing a dungeon when the torch went out. In a panic each character made an attack.

1. Thespa the Druid, 13 HP, attacked 2 targets for 8 damage each
2. Heaven the Cleric, 15 HP, attacked 1 target for 7 damage
3. Spelzi the Mage, 6 HP, attacked everyone standing, including himself, for 4 damage each
4. Danket the Warlock, 14 HP, drained 4 health from herself to attack 2 targets for 9 damage each
5. Jacoby the Rogue, 7 HP, attacked 3 targets for 2 damage each
6. Ingvar the Fighter, 17 HP, attacked 1 target for 13 damage

When the dust settled everyone in the party was dead, but there wasn't an attack. The party had attacked themselves by mistake. All but the first and last characters to act downed exactly 1 character. The first to act downed no one, and the last character to act downed 1 character and themselves. All characters were dropped to exactly 0 hit points. Downed characters can't act, and everyone in the party acted once. Determine the order everyone acted, and who killed whom.

1. _____ acted
2. _____ acted and downed _____
3. _____ acted and downed _____
4. _____ acted and downed _____
5. _____ acted and downed _____
6. _____ acted and downed _____ and themselves

Final Answer: _____
